A comparatively modest present,
but the good ones which I can give.

"Only who knows his past has a future."
Wilhelm von Humboldt (1767-1835)

Foreword

This book contains the facts, who, where, when, but not the story of our family. If you can add to our history or have an anecdote to tell, then please share it and help make our story come alive. Even little things, like your cousin the fisherman who didn't eat fish, will make our story more personal. If you can add to our story, please contact me! I hope to have at least a photo of everyone who is here. It is amazing how often there is a close resemblance for relatives separated by generations.

This family branch was compiled by Bracha Sheinbein Weisbarth, New Jersey.
NOTE: Bracha wrote the following about her original family name changing from Ehrlich to Sheinbein:

"My mother who lives in Israel told me that originally our last name was Ehrlich (Tzedek in Hebrew.) This is a name of Cohanim families. During the time when Jews were conscripted into the Russian army to serve 25 years. Only single sons were exempt from service. As there were two sons in the family, one retained the name Ehrlich, and the other was given the name Sheinbein. So...we are related to the Ehrlichs, and my late father Zvi (Hershl) as well as my brother Benjamin who lives in Israel are Cohanim.

Our family stems from Stepan (Stepin.) My grandfather David moved to a small shtetl named Malinsk. Grandfather David had 4 sons: Hershl, Abraham, Shlomo and Moshe and one daughter Feigele."

Introduction

The following pages list data for all known family members as of December 9, 2019.

Each immediate family is presented in their own section that contains a graphical family tree as well as a description with information about each referenced person and their children. The child section provides information about the children of the preceding couple. When a child has offspring of their own this is presented in a separate family section for that child. In this case a '+' is used to denote that an individual will appear later in the book as a parent with his/her own children and there is a link to the appropriate family reference number. For children with partners but no offspring the partner data is given with the reference family. Roman numerals, followed by a period, are used to indicate the birth order.

Sources for the information provided are given in the footnotes.

This document reports the details of 1891 individuals, of whom 985 are male and 901 are female. The sex of 5 individuals is unknown.
