A comparatively modest present,  
but the good ones which I can give.

## **Foreword**

This book contains the facts, who, where, when, but not the story of our family. If you can add to our history or have an anecdote to tell, then please share it and help make our story come alive. Even little things, like your cousin the fisherman who didn't eat fish, will make our story more personal. If you can add to our story, please contact me! I hope to have at least a photo of everyone who is here. It is amazing how often there is a close resemblance for relatives separated by generations.

## **Introduction**

The following pages list data for all known family members as of August 12, 2017.

Each immediate family is presented in their own section that contains a graphical family tree as well as a description with information about each referenced person and their children. The child section provides information about the children of the preceding couple. When a child has offspring of their own this is presented in a separate family section for that child. In this case a '+' is used to denote that an individual will appear later in the book as a parent with his/her own children and there is a link to the appropriate family reference number. For children with partners but no offspring the partner data is given with the reference family. Roman numerals, followed by a period, are used to indicate the birth order.

In the chapter titled "Family of the Starting Person" the ancestors of Yitzchak PRIVIS and Frieda HOUSE are presented in a kind of enhanced Pedigree Chart which displays the graphic representation of their direct-line ancestors and the children of the couple. This chapter contains information about the couple whose offspring are listed in the later chapters.

The chapter titled "Families of his Descendants" provides details (as known as of the publication date) for the offspring of Yitzchak PRIVIS and Frieda HOUSE. There is a chapter for each generation. Relatives are listed in the order of the nearness of their relationship.

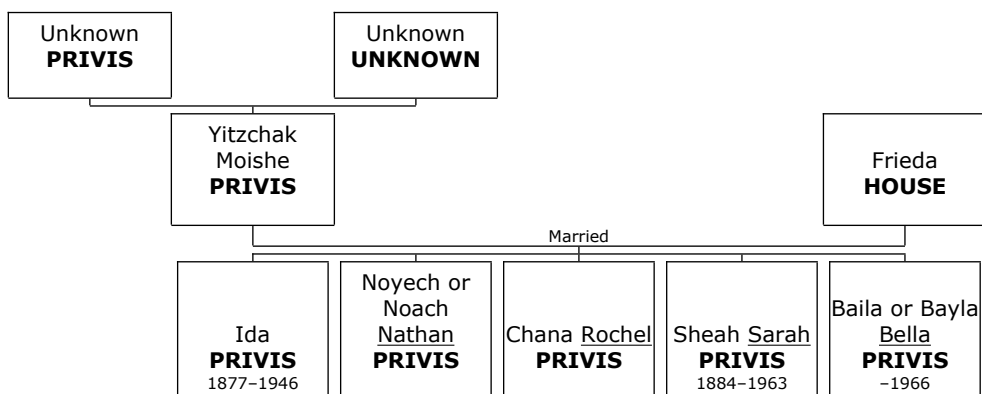

Sources for the information provided are given in the footnotes.

This document reports the details of 283 individuals, of whom 151 are male and 127 are female. The sex of 5 individuals is unknown. Of the 39 individuals with recorded birth and death dates, the average lifespan was 70.05 years. Of these, 20 males averaged 68.7 years, and 19 females averaged 71.47 years. The longest living male was Burton Ben Burt BIERMAN (1885–1979), who died aged 94. The longest living female was Sylvia Ruth SHEINBEIN (1900–1996), who died aged 96.
